SUMMARY

Junior Frontend Developer with a Computer Science Master's in progress and an Electronics & Communications Engineering background. Experienced in building responsive, real-world web applications with React, JavaScript (ES6+), and Firebase, including two deployed client projects with live users. Strong foundation in state management, REST API integration, and modern tooling, with an engineering mindset for debugging and architecture, and a self-driven approach to continuously expanding into TypeScript, Next.js, and Tailwind CSS.

TECHNICAL SKILLS

- **Core:** React (Hooks, Context API, React Router v6), JavaScript (ES6+), HTML5, CSS3, Responsive Design
- **Growing:** Next.js 14 (App Router), TypeScript, Tailwind CSS, Supabase, Redux
- **APIs & Data:** RESTful APIs, Fetch/AbortController, Firebase (Firestore, Authentication), JSON Server
- **Tools & Workflow:** Git & GitHub (branching, PRs, GitHub Actions CI/CD), Vite, ESLint, Prettier, Vercel, npm, n8n
- **Other:** Python, C, Power Platform (Power Apps, Power Automate, Dynamics 365 BC)

FEATURED PROJECTS

ABC Advanced Body Care — Clinic Management Platform | *React, Vite, Firebase, Tailwind CSS* | [Live Demo](#)

- Built a bilingual (Arabic/English, RTL/LTR) real-world client platform with a real-time booking system that prevents double-booking, using Firebase Firestore and Authentication.
- Automated WhatsApp booking confirmations via n8n webhooks and built a non-technical staff dashboard for managing doctors and schedules.

MAG Design — Luxury Interior Design Platform | *Next.js 14, TypeScript, Tailwind CSS, Framer Motion, Zustand* | [Live Demo](#)

- Developed a full-stack Next.js 14 (App Router) production site with TypeScript, including a secure client portal for tracking project phases, document downloads, and team messaging.
- Implemented bilingual EN/AR support with proper RTL layout switching and smooth Framer Motion animations across a multi-step booking flow.

React Quiz App | *React, useReducer, Custom Hooks* | [Live Demo](#)

- Built a quiz application managing all state through a single useReducer (zero useState), with a timer implemented as a side effect using useEffect cleanup, score tracking, and answer validation.

Mapty — Workout Map Tracker | *Vanilla JavaScript, OOP, Geolocation API, Leaflet.js* | [Live Demo](#)

- Designed a full OOP architecture with class inheritance, integrating the browser Geolocation API with Leaflet.js for an interactive workout map, persisted via localStorage.

PROFESSIONAL EXPERIENCE

Power Platform Developer Intern | CFO Consulting (Remote)

Jan 2025 – Mar 2025

- Built enterprise Power Apps and Power Automate workflows to streamline business processes; collaborated with cross-functional teams to translate business requirements into technical specifications.
- Reduced manual data entry by 90% through automated synchronization workflows.

Robotics Instructor & Team Leader | Smart Technology Robotics Club, Mansoura

Mar 2024 – Dec 2024

- Led a team of 6 instructors delivering programming (Arduino, Scratch, Python) and hardware projects to 150+ students aged 8-18, emphasizing algorithmic problem-solving.
- Developed curriculum materials and technical documentation; implemented performance-tracking software achieving a 90% user satisfaction rate.

EDUCATION

Master's Diploma in Computer Science | Mansoura UniversityMay 2025 – Present

Current GPA: 3.4/4.0

B.Sc. Electronics and Communication Engineering | Mansoura UniversitySep 2019 – Jul 2024

GPA: 81.78% (Very Good); Relevant Coursework: Data Structures & Algorithms, AI & Machine Learning, Computer Networks

CERTIFICATIONS & CONTINUOUS LEARNING

- The Complete JavaScript Course — Jonas Schmedtmann, Udemy (Completed, March 2026)
